

Key: W = White, R = Red, Sp = Fully Sparkling, Sw = Sweet, Rs = Rosato

A word on Flavors and Tasting Notes: Flavor recognition is highly subjective. The listed flavors are suggestions of typical possible aromas and tastes only. Every wine has over 1000 flavor compounds, and detection and recognition of these flavors is highly dependent on an individual's physiology and psycho-emotional background. Additionally, flavors vary by producer, style and vintage. Your best strategy will be to try these wines for yourself and develop your own flavor recognition markers for each one.

Friuli-Venezia Giulia
