Producers

Rosso Cònero DOC/Cònero DOCG

Producers

Casa Vinicola Garofoli

- Origins of the Family owned winery date back to 1871
- In 2005 the fifth generation entered the family business
- The family philosophy has remained in that they continue to update winery production techniques, and select the very best grapes with lower yields while keeping historical traditions alive

Tourism – “Festa del Rosso Conero”

	
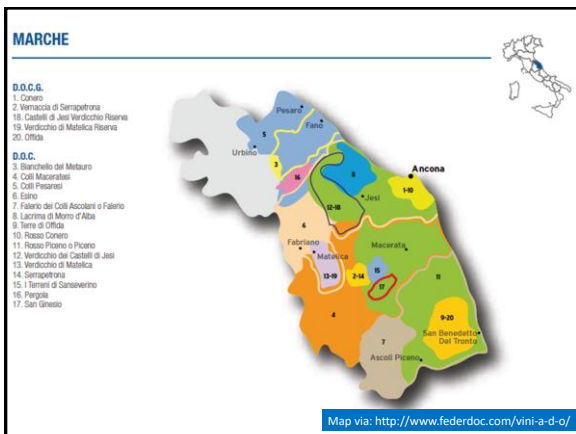

---	---

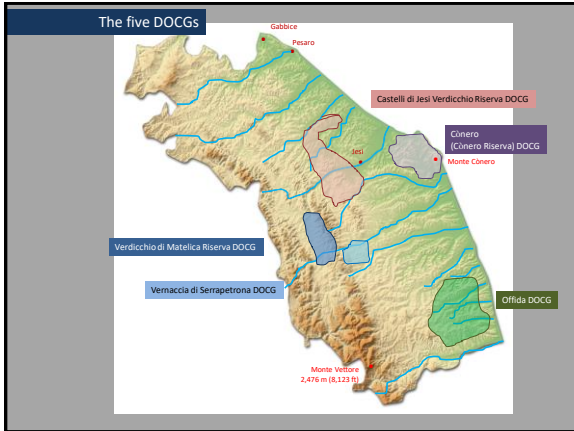

<http://www.festadelrossoconero.it>

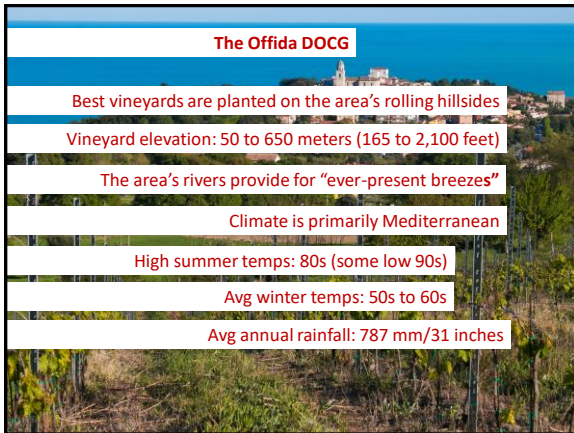

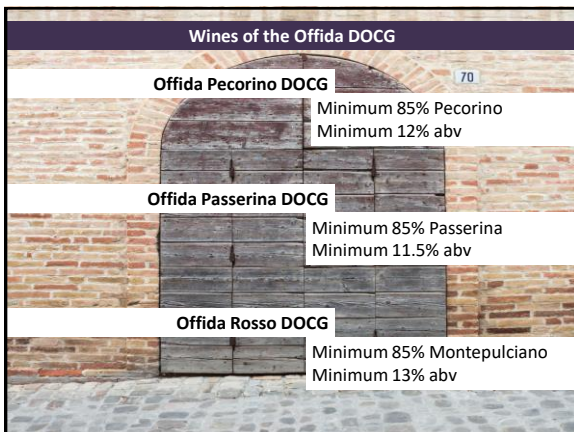

The Pecorino Grape:

Considered native to Marche

Most likely domesticated from wild grapevines in the area around Mount Sibillini

Early ripening, low yield, excellent disease resistance

Typical aromas: Citrus (lemon, lime), mineral, herbal, floral (jasmine)

Very low acreage; was "saved from near extinction" in the 1980s

Typical wines: Dry, "zesty", crisp, refreshing

The Passerina Grape:

Grown mainly in Central Italy & Italy's Adriatic Coast

Might be a mutation of Biancame/Bianchello

Also known as:

- Campolese
- Uva Passera
- Uva d'Oro
- Trebbiano di Teramo

Robust, vigorous, notoriously high yield

Used in sparkling wines, *passito* wines, and white blends w/Pecorino or Trebbiano Toscano

Passerina Offida DOCG: Dry, crisp, and refreshing

Aromas and flavors: Apple, pear, & mineral

Bitter hint on the finish

Offida Rosso DOCG

Minimum 85% Montepulciano

Other 15% is often Sangiovese

Minimum 13% abv

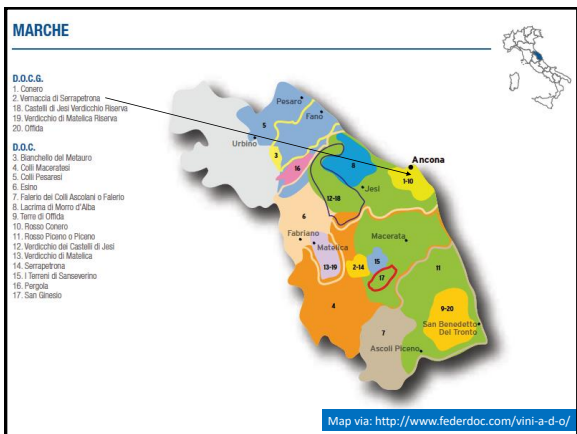

Minimum 24 months total aging (from November 1 of the harvest year) including at least 12 months in wood and 3 months in the bottle

Wines tend to be deep in color and medium-to-medium+ in acid, body, and tannin

Typical aromas and flavors: red fruit (cherry, plum), black fruit (boysenberry), earthy, herbal (oregano) spice (black pepper)

Vernaccia di Serrapetrona DOCG

History

- ✓ Established as a DOCG in 2003
- ✓ Zone lies in the province of Macerata covering the communes of Serrapetrona and portions of San Severino Marche and Belforte del Chienti
- ✓ One of Italy's smallest DOCGs
- ✓ The only DOCG producing only sparkling red wine
- ✓ One of the only wines in the world requiring 3 separate fermentations

Vernaccia di Serrapetrona DOCG

Appassimenti Aperti

Vernaccia di Serrapetrona DOCG

Location/Climate/Soil

- Serrapetrona lies at the foothills of the Apennines with the vineyards planted at high altitude approximately 1400 – 1960 ft above sea level
- Continental influenced climate brings warm days and cool nights
- Fog is common in the vineyards as it makes its way through the valley, impacted by waters from lake Lago do Caccamo at the base of the town and the Adriatic coast 30 miles away
- Soils range from clay, marl and sandstone

Vernaccia di Serrapetrona DOCG 

Grapes

Primary Varietals:

- Vernaccia Nera

Other Varietals:

- Sangiovese
- Montepulciano
- Ciliegiolo
- Plus other non-aromatic red varietals grown within the zone of production

Vernaccia Nera

Ciliegiolo

Vernaccia di Serrapetrona DOCG 

Winemaking

Rosso Spumante

- Styles: Secco (Dry) or Dolce (Sweet)
- Min 85% Vernaccia Nera
- Max 15% other non-aromatic authorized varietals to include: Ciliegiolo, Sangiovese and Montepulciano
- Min Alcohol – 11.5%

Other Requirements

- Minimum of 40% of the Vernaccia Nera grapes are required to be dried in order to reach a potential alcohol of 13%
- Aging: Cannot be released until June 30th of the year following harvest
- Min planting: 2,200 vines per hectare
- Max yield: 10 tons per hectare

Vernaccia di Serrapetrona DOCG 

Production

Unique 3 Step Production Process:

- Through hand selection up to 1/3 of the harvested grapes (remaining are left to dry) are used to produce still wines
- The semi-dried grapes are pressed and made into a concentrated wine for the 2nd stage of fermentation for "Apassimento"
- The above two wines are combined to complete a 3rd and final fermentation in autoclave tanks (*Charmat method*). The wine settles in bottle for 2-3 months prior to release

Vernaccia di Serrapetrona D.O.C.G. 

Producers

Vernaccia di Serrapetrona D.O.C.G.
