**Minerals**

Like all matter, minerals are composed of elements.

**THE PERIODIC TABLE OF THE ELEMENTS**

8

---

---

---

---

---

---

---

---

**Minerals**

The "building blocks" for rocks.

- Inorganic
- Natural
- Specific chemical structure
- Crystalline structure

9

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

12

Rocks

Composed of minerals

13

---

---

---

---

---

---

---

---

14

---

---

---

---

---

---

---

---

Rocks

Composed of minerals

- Naturally occurring
- Do not have a specific or common structure
- Differentiated by mineral composition and texture

15

---

---

---

---

---

---

---

A Quick Re-Cap:

---

---

---

---

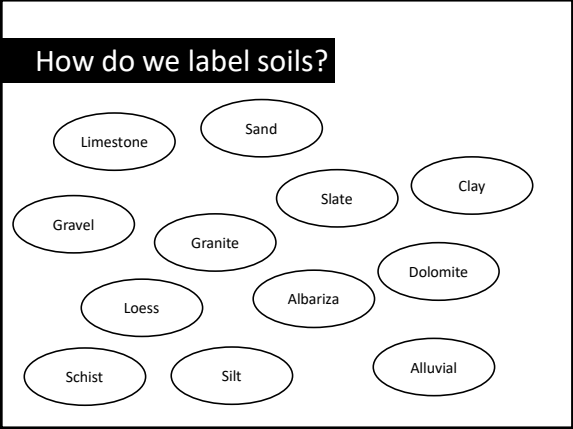

---

---

---

---

52

How do we label soils?

- Limestone
- Sand
- Slate
- Clay
- Gravel
- Granite
- Dolomite
- Loess
- Albariza
- Schist
- Silt
- Alluvial

---

---

---

---

---

---

---

---

53

Why it matters:  
How does the soil  
affect the vine?

---

---

---

---

---

---

---

---

54

55

---

---

---

---

---

---
