11

12

Hermitage AOC

A small, historic, and prestigious appellation:
140 hectares/ 345 acres of vines

A long, granite, south-facing hillside rising
steeply up from the banks of the Rhône

While best-known for its long-lived red wines,
the appellation also produces white wines
(both dry and sweet).

Red wines are based on Syrah with an allowed
max 15% (combined) Marsanne & Roussanne

13

The white wines of the Hermitage AOC—
accounting for about 30% of the total
production—are flavorful, age-worthy and
made using Marsanne and/or Roussanne.

A super-obscure sweet white wine—Hermitage
Vin de Paille—is made from overripe grapes
that are dried post-harvest.

14

La Cité du Chocolat Valrhona: located in Tain l'Hermitage next door to Valrhona's historic chocolate factory.

The Valrhona Brand's name (created in 1947) is derived from *Vallée du Rhône*.

The castle was originally constructed upon the order of Pope John XII—the second of the “Avignon Popes”—in 1317.

44

After Pope John XII, none of the subsequent Avignon popes stayed in Châteauneuf-du-Pape, rather, they resided at the Papal Palace in Avignon.

45

In 1378, during the *Western Schism*, Clement VII (the *Antipope*) resided in the castle.

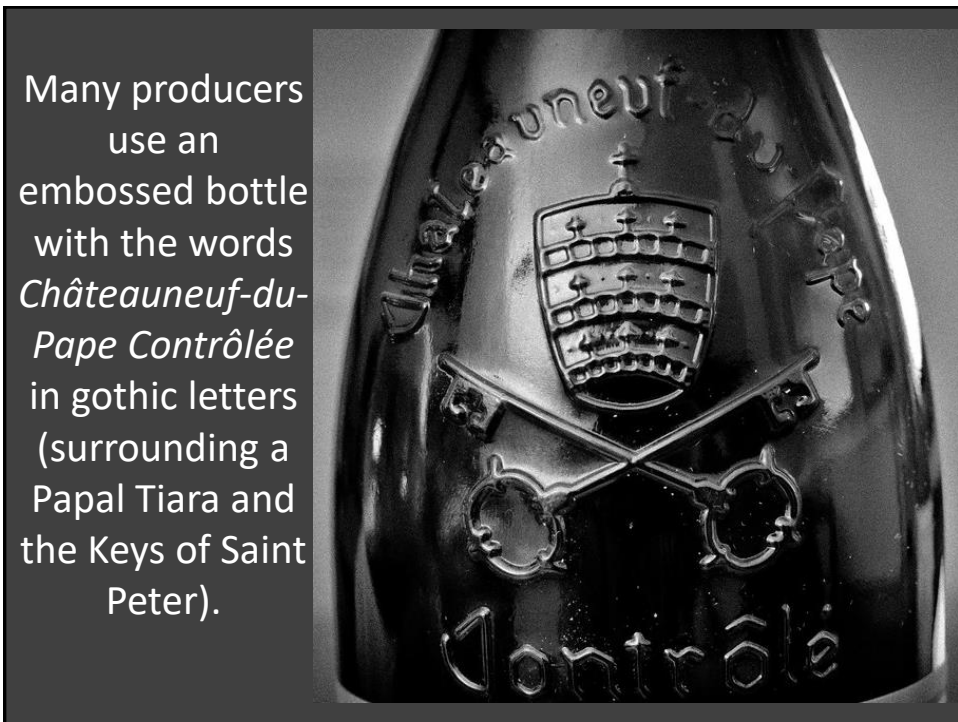

After he departed, the castle passed to the Archbishop of Avignon.

46

It was ranked as a historical monument in 1892, however, it was seriously damaged during WWII.

47

Many producers use an embossed bottle with the words *Châteauneuf-du-Pape Contrôlée* in gothic letters (surrounding a Papal Tiara and the Keys of Saint Peter).
